

Elgato is looking for motivated student helpers (40 h/month), ideally enrolled in the field of Mechanical or Electrical Engineering, Computer Science or Product Development, to support the hardware team with unit dis-/assembly, quality assurance, logistics, facility maintenance and process development at the newly created Aachen location (Karl-Friedrich-Str. 60).

#### **WHAT YOU'LL BE WORKING ON:**

Join the Elgato hardware team to support manufacturing, quality assurance and process optimization hands-on:

- Become part of a small startup unit and support the development of a brand-new location (Karl-Friedrich-Str. 60)
- Disassemble and assemble hardware units using specific methods and tools which you will be trained to operate
- Perform quality assurance of parts and products as well as boxing, packaging and tracking of units for shipping
- Handle on-site storage and ongoing documentation of hardware units and working materials
- Help the team to establish and uphold a high standard in production quality and efficiency
- Develop and improve production workflows for other team members to work with

#### ABOUT ELGATO:

Elgato is the audiovisual tech brand of choice among content creators on all platforms. If you've watched videos on YouTube or Twitch, chances are our products helped make them shine. Elgato's mission is to empower content creators everywhere. Be part of the team that makes this happen.

#### WHAT'S OFFERED:

- Insight into a booming, future-proof industry
- 520 €/month (Minijob) salary at 40 hours month
- Discounts on Elgato, Corsair, Origin, and Scuf Gaming products
- Great coffee, drinks and snacks for free

#### WHAT'S REQUIRED:

- You're an active student, ideally in the field of Mechanical or Electrical Engineering, Computer Science or Product Development.
- You are organized and self-motivated with a hands-on mentality and start-up mindset. Using tools and getting your hands dirty is nothing you're afraid of.
- You're a quick learner and a handy problem solver. Experience in hardware repairs and handling of industry grade tools is an advantage.
- You are well familiar with MS Office tools, experience with project organization tools (i.e., Monday, Trello) is a plus.
- Fluency in both written and spoken German and English is required.
- Knowing the Elgato products is beneficial.

Interested? Then send your application (cover letter, CV & reports - in English or German) via email to: [elgato.customs@corsair.com](mailto:elgato.customs@corsair.com)
